Douglas and Lancaster Delegations
on Opposite Sides of Hall.

HALLS ARE NEWLY DECORATED

Report Filed with Governor Shows
Improvement and Needs of the
School for the Blind at
Nebraska City.

(From a Staff Correspondent.)
LINCOLN, Dec. 10.—(Special.)—The two delegations in the house of representatives of the Nebraska legislature, Douglas and Lancaster counties, will occupy opposite sides of representative hall during the session. The Lancaster county representatives will occupy the same position as formerly, to the left of the speaker in the second row from the back near the center aisle, while the Douglas county representatives will move across from the left side near the front, a place they have usually occupied, to the first and second rows on the right of the speaker, counting from the rear, two of the representatives being in the back row.

There are still twelve seats unoccupied in both branches. In the senate hall of Madison, Hummel of Webster, Robertson of Holt and Reynolds of Dawes, have not selected their seats. In the house eight seats are still unoccupied for Kaufman of Nemaha, Gustin of Cass, Banks of Knox, Fox of Pierce, Piller of Stanton, Nichols of Madison, Sindelar of Colfax and Jones of Furnas having not applied for a chair. No. 12 is still vacant and waiting patiently for an occupant who is not afraid of the hoodoo.

Representative hall has been repapered and painted. The desks and chairs have been assigned to their places, the cards showing the name of the occupant with the county he hails from thereon have been fixed and everything is in readiness for the rap of the gavel.

Over in the senate chamber the paintings are still at work, but the chamber is rapidly being finished and will be completed probably this week. The walls are tinted in green, the ceiling given a grayish color with gold trimming, while the space between the ceiling and the side has been decorated with paintings till it looks like an art gallery.

Tuberculosis Day.
Superintendent Delsell has issued letters to the schools of the state asking them to set aside one day as tuberculosis day in which special work may be done in order that the pupils may become acquainted with the methods to be used to prevent the disease and its spread. The first school to notify the superintendent that such a day had been designated in North Platte, which will observe tomorrow as tuberculosis day.

New G. A. R. Records.
Assistant Adjutant General Trimble of the Grand Army of the Republic has an extra force of clerks at work on the record of soldiers of the civil war who have lived in Nebraska at any time and have since died. When completed the records will be a valuable addition to the Grand Army of the Republic records for future reference.

New Decorating Company.
The W. G. Colling company is a new corporation filing its articles with the secretary of state. The company is located in Omaha and will engage in general decorating of interiors, etc. It is incorporated for \$25,000. William G. Colling and Thomas J. McShane are the incorporators.

The Flatiron company of Omaha has filed articles of incorporation also with the secretary of state. The company will own and operate rooming and apartment houses and is incorporated for \$40,000, \$30,000 of it being preferred stock at \$100 per share. The directors are Henry B. Payne, Edward M. Slater, George T. Porter and Sarah C. Payne.

Mortgage Released.
Papers were filed with the secretary of state today in which the Bankers' Trust company releases to the Missouri Pacific Railroad company a mortgage on property of the company purchased September 1, 1912. The property shown in the release was 1,500 box cars, 200 coal cars, seven baggage cars, five combination baggage and mail cars, two postal cars, eleven passenger engines and twenty-five freight engines. The release did not show the amount of the mortgage.

Schools for Blind.
A report from the superintendent of the school for the blind at Nebraska City for the biennium, filed with the governor, shows that seven were graduated from the school during the two years. The superintendent reports everything in good condition and generally satisfactory. During the biennium there has been added to the institution five new cement porches in place of the old wooden affairs, a new heating plant has been put in, fire escapes provided, steel ceilings put on, new carpets laid, new plumbing over the entire building and other minor improvements necessary to the comfort of the inmates.

Galloway to Iowa.
A hearing was on before Governor Aldrich this morning, Attorney Bump of Polk county, Ia., with Judge Davidson of Tecumseh, appearing for the purpose of urging that the extradition papers asked for over a month ago for E. F. Galloway, charged with deserting his wife in Polk county, be issued. When the hearing was on before the governor a month ago, Galloway and his attorney agreed to give bond in the sum of \$1,000 that the husband would pay a certain sum each month for the support of the wife and child. No bond has been given or anything toward the support of the wife and the plaintiff in the case asked that the papers be issued for his return to Iowa. The governor granted the request. Galloway lives in Tecumseh and it is expected that he will be taken to Iowa at once.

Fire Commissioner Randall has inaugurated a new organization known as "The Nebraska Fire Scouts" which he insists will become one of the greatest organizations in the state. He has issued a set of cards and proposes to interest every prominent man in the state in the new order. He is sending out membership cards to those whom he thinks would make energetic members of the order and assist in the work of preventing fires. As yet there is no pass word issued or no halting sign of distress on tap.

Wrestling Match at Schuyler.
SCHUYLER, Neb., Dec. 10.—(Special.)—B. C. Busch, touted by Columbus wrestling fans as a coming champion in the lightweight class, will take on C. C. Watts, the local star, here tomorrow night. The match will be catch-as-catch-can, best two out of three falls. Several good preliminaries are also promised.

GOVERNMENT IS CREATING LAKE NEAR SCOTTS BLUFF

SCOTTS BLUFF, Neb., Dec. 10.—(Special.)—A visit to the camp of Bartlett & Kiling, twelve miles northeast of this city, reveals something of the magnitude of the \$200,000 structure now under way as part of the great reclamation government irrigation project. First a deep channel is cut in the earth which is filled with concrete, and as the dam is built upward, the concrete core is extended. This dam is nearly half a mile long at the top and will be about ninety feet high in the center. A natural depression on the upper side will, when filled, contain 50,000 acre feet of water, or sufficient to cover 30,000 acres of foot land. The lake thus formed will be more than two miles across and nearly round, and is the larger of the three which the government is building in this vicinity. When completed, which will be in about two years, this will be made one of the most charming and useful features of charming west Nebraska. Local pride will see to it that the lakes will be fringed with trees and federal and state fisheries will be called upon to contribute bass and other game fish. It has been suggested that the reservoir be named Bryan lake.

FAIRBURY WILL HAVE A NEW STATE BANK

FAIRBURY, Neb., Dec. 9.—(Special.)—A deal has been consummated in this city whereby E. R. Bee has purchased the Bonham bank building on the northwest corner of the square and will open a new bank in a few weeks. Last week the Bonham and First National banks consolidated and Mr. Bee immediately took steps to form a new corporation and will open a state bank as soon as the Bonham bank is vacated. FRANK LOVELAND PLEADS GUILTY TO SHOOTING WIFE

MITCHELL, S. D., Dec. 10.—(Special.)—Frank Loveland pleaded guilty in circuit court today to the charge of shooting his wife with intent to commit injury. He was given two and a half years in the penitentiary. Loveland had a fancied grievance against his wife and went seven miles into the country to see her. He accused her of having looked with too much favor on another man, and then shot her in the leg. Loveland, frightened at what he had done, ran like a deer seven miles to town and gave himself up to the officers, fearing that the relatives of his wife would do him some injury.

INSIST ON MUNYON'S Paw Paw Pills FOR Constipation

Munyon's Paw-Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods. They do not scour, they do not grip, they do not weaken; but they do start all the secretions of the liver and stomach in a way that soon puts the stomach in a healthy condition and corrects constipation.

Munyon's Paw-Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weaken; they enrich the blood instead of impoverish it; they enable the stomach to get all the nourishment from food that is put into it.

These pills contain no calomel, no dope, they are soothing, healing and stimulating. They school the bowels to act without physic. Price 25 cents. All druggists.—Advertisement.

COUNTY FATHERS MEETING

Supervisors of State Held Session in Lincoln.

TALK MATTERS OF ASSESSMENT

Many Members Think Actual Cash Value of Land Should Be Assessed to Owners, Especially if Boasted of.

(From a Staff Correspondent.)
LINCOLN, Dec. 10.—(Special.)—The county commissioners and supervisors of the state with the county clerks are holding a session in this city at the Lincoln hotel.

Contrary to the usual custom when the county boards have stood the expense of the session, the Lincoln Commercial club has insisted on looking after the welfare of the association at this session and entertained the visitors with a theater party at the Oliver theater this evening and will tender them a banquet Wednesday evening at the Lincoln hotel.

The officers of the commissioners and supervisors' association are:

P. L. Kennedy, president, York; Henry Fastman, vice president, Nebraska City; C. E. Hill, secretary, Hastings; Ed Williams, treasurer, Grand Island.

The officers of the clerks' association are:

G. L. Hedlund, president, Holdrege; J. R. McDonald, vice president, Pierre; M. Yost, secretary-treasurer, North Platte.

The executive committee for the year are:

Frank Dewey, Douglas county; Allen Sharp, Stanton county; and S. R. McFarland, Madison county.

Addresses and talks were made by different members during the afternoon, each address bringing out a discussion from many present.

One man said that he believed when a man publicly declared that his land was worth \$100 an acre, it should be assessed at that, and that no man ought to expect more work on the road along his land than he donated in taxes.

Mike Cayser of Boone, was in favor of good roads and desired to give the automobile full credit for it. He said, "If the roads were kept in good shape for automobiles, they would be in good shape for all other vehicles."

The session will open Wednesday morning with a talk on the "County Poor," by Dr. John V. Riley of Greeley county, followed by the following program:
